JOIN AIP – ONE OF THE LARGEST ENERGY TRANSITION FUNDS IN THE NORDICS

Looking for a career within renewable energy investments? Then join AIP Management as an Associate in our expanding Asset Management Team.

AIP Management is a global leader in renewable energy and infrastructure investments and if you are ambitious and looking for true global impact, AIP Management is the right place for you. The AIP Asset Management team located in Copenhagen currently comprises 9 professionals with diverse backgrounds in terms of experience, education, and nationalities. The team is responsible for managing and optimising the value of the energy and infrastructure assets in the AIP portfolio.

The role
You will work closely together with highly skilled professionals with extensive experience from principal investments, M&A, asset management, consulting, and the energy industry. At AIP, we emphasize a steep learning curve and a strong team culture based on an entrepreneurial, informal, and fast paced environment, where everyone’s contribution is important. We take pride in being a purpose-lead company that makes investments which support the transition towards a more sustainable society, on behalf of our investors.

As an Associate, you will gain an in-depth understanding of renewable energy investments and build best-in-class competencies within valuation, financial modelling, and commercial analysis.

The primary tasks include:
• Responsibility for the financial models of specific assets and build financial models using best-practice modelling techniques
• Preparation of performance overviews, analyses, presentations, and valuations of assets in the AIP portfolio for decision and reporting purposes
• Perform analysis and valuation of improvement levers and key issues arising on the assets to optimize value across the asset life cycle
• Participation in projects related to the late stage of the investment process, add-on investments to existing assets, divestments, asset restructuring, and refinancing of assets

The job will entail travel activities in the order of 10-20 days per year as you will join senior members from the asset management team in board meetings with AIP partners and in on-site visits.

We are looking for a candidate with:
• Excellent academic achievements
• 2-4 years of post-graduate experience from a valuation/corporate finance position in an infrastructure/energy company or from financial advisory/M&A
• Strong skills within valuation, financial modelling and corporate finance
• Ability to deliver high quality with a best-practice mindset and an attention to detail
• The ability to work independently and to drive projects and workstreams forward
• A positive attitude and a desire to work in a growing organisation with a lot of responsibility and ability to shape your own working day

Experience with energy and infrastructure assets is an advantage, but not a requirement

How to apply
If you wish to be considered for the position, please send your application through our website. We will review and conduct interviews on an ongoing basis.

Join the AIP Energy Transition Team and make a difference in shaping a sustainable future!
